Digital Collections [1]

The Digital Collections [2] of the Sistema Bibliotecario di Ateneo constitute an online space that gathers and makes available digital content created through projects dedicated to the enhancement and preservation of cultural heritage.

The Digital Collections are the result of the digitization of rare and valuable materials held in the University's libraries.

All digitized works (for a total of more than 80,000 images) can be searched through the OneSearch [3] discovery tool and accessed under a Creative Commons CC BY 4.0 license [4].

Contents
