

Programmi per la gestione dei riferimenti bibliografici

Mendeley

Una guida all'utilizzo

Cos'è Mendeley

MENDELEY è un programma:

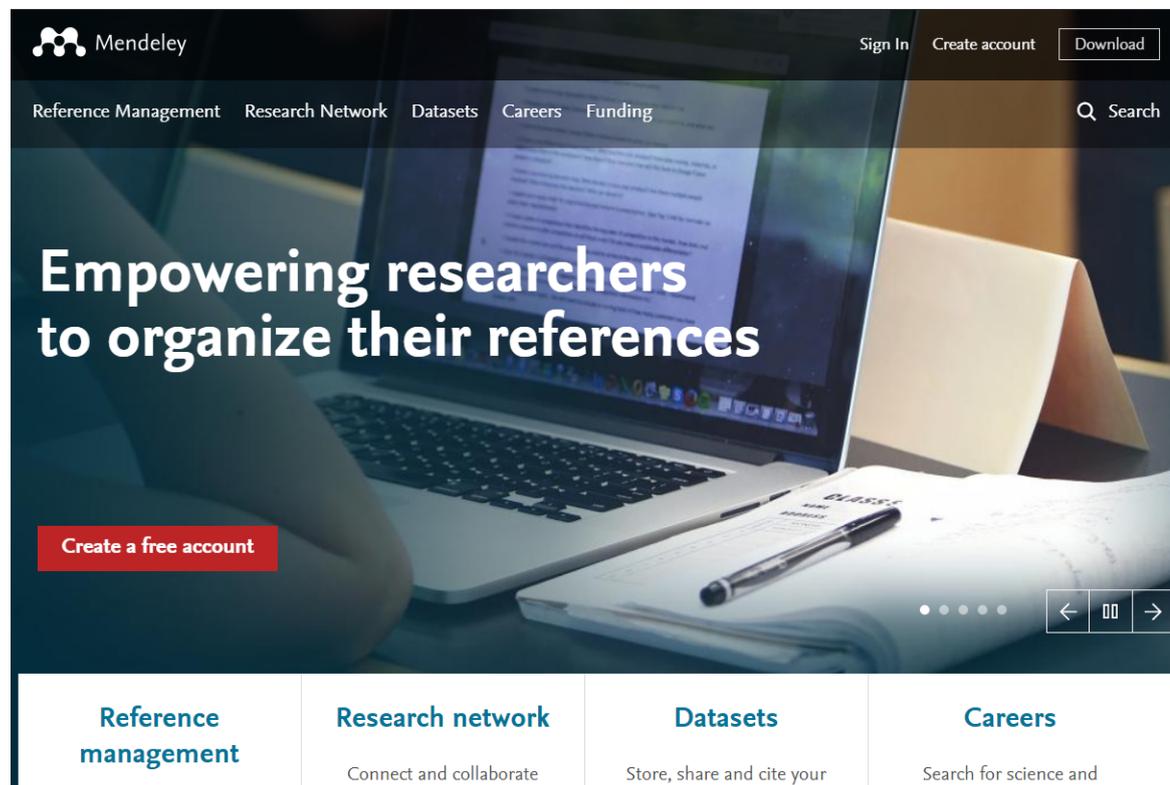

- per la gestione dei **referimenti bibliografici**,
- per creare **(automaticamente) bibliografie**,
- per **archiviare online file di articoli** fino a 2G (versione FREE),
- per **leggere e annotare** pdf su più dispositivi,
- per **condividere** materiale bibliografico con altri collaboratori.

Si compone di una **versione web** e di una **versione desktop** sincronizzate.

Disponibile per Android, Linux, Mac e Windows.

Registrazione

Il primo passo consiste nella registrazione al sito
<http://www.mendeley.com/>

The image shows the homepage of the Mendeley website. At the top left is the Mendeley logo. To its right are links for 'Sign In', 'Create account', and a 'Download' button. Below this is a navigation menu with 'Reference Management', 'Research Network', 'Datasets', 'Careers', and 'Funding'. A search bar is located on the right side of the navigation menu. The main content area features a large background image of a laptop and a notebook. Overlaid on this image is the text 'Empowering researchers to organize their references' in white. Below this text is a red button that says 'Create a free account'. At the bottom of the page, there are four columns of text: 'Reference management', 'Research network' (with the subtext 'Connect and collaborate'), 'Datasets' (with the subtext 'Store, share and cite your'), and 'Careers' (with the subtext 'Search for science and').

Mendeley Data is out of beta

Starting today, Mendeley Data is out of beta. We're extremely happy with all the great datasets people have been submitting, and we now think that the product has reached the level of maturity where it has all the features people need to publish their research data online. If you haven't heard of Mendeley Data before, [...]

How and why to do an online conference — #WSTC2

How we do research is changing every day, with new tools and technologies that can be harnessed to ease and further research. We think Mendeley is one of them, of course. This is why we were intrigued and honored to sponsor a Twitter conference organized and hosted by one of our own Mendeley Advisors, Sjurdur [...]

Versione web: Library

Mendeley web è suddiviso in tre pannelli verticali: a sinistra le cartelle, al centro i riferimenti nella cartella selezionata, a destra il riferimento scelto.

The screenshot displays the Mendeley web interface. On the left, a sidebar contains navigation options like 'All Documents', 'Favorites', and 'My Publications'. The main area shows a list of documents in a table. The document 'Eight ways to clean a digital library' by Perkel J in Nature (2015) is selected. On the right, a detailed view of this document is shown, including its title, author, journal name, volume, page numbers, DOI, ISSN, and a URL to the full text.

Nella versione web sono presenti le funzioni base descritte più avanti:

- Aggiungere nuovi riferimenti e nuovi file pdf
- Leggere ed annotare file pdf
- Cercare nel testo completo dei propri file e in selezionate risorse online.

Versione desktop

La versione desktop da installare sul proprio pc, sempre divisa nei tre pannelli verticali, presenta delle funzioni aggiuntive.

L'icona **Sync** sincronizza la versione web e la versione desktop.

The screenshot shows the Mendeley Desktop application window. The top toolbar contains several icons: 'Add Files', 'Folders', 'Related', 'Share', and 'Sync' (highlighted with a red square). The main interface is divided into three vertical panels. The left panel shows the 'Mendeley' sidebar with 'My Library' and 'Groups' sections. The middle panel displays a list of documents under 'All Documents' with columns for Authors, Title, Year, Published, and Added. The right panel shows the details of a selected document, including its title, authors, journal information, and abstract.

In evidenza i comandi *Add Files* per importare file, *Add Folder* per importare cartelle di file e ultimo *Add Entry Manually* per inserire **manualmente** riferimenti, ovvero digitare tutti i campi autore, titolo, etc.

Se si importano file o cartelle di file dal proprio pc **automaticamente** Mendeley estrarrà tutti i metadati e compilerà i riferimenti bibliografici.

È necessario verificare che siano corretti: un aiuto automatico sul pannello a destra chiederà di confermarli o cercare in altre banche dati quelli corretti.

L'importazione di **file** e **cartelle** è possibile anche con il trascinamento degli stessi nell'area desktop del programma (**Drag and drop**).

Se si clicca sull'icona del file in pdf, questo si apre nel lettore per pdf integrato in Mendeley

The screenshot shows the Mendeley Desktop application window. The title bar reads "Mendeley Desktop". The menu bar includes "File", "Edit", "View", "Tools", and "Help". The toolbar contains icons for "Add Files", "Folders", "Related", "Share", and "Sync". A search bar is located in the top right corner.

The main area displays a list of documents under the "All Documents" tab. The list has columns for "Authors", "Title", "Year", "Published In", and "Added". A red box highlights the PDF icon next to the first document entry, "Aliprandi, Simone". A red arrow points from the text "ICONA DI FILE IN PDF" to this icon.

On the desktop, to the right of the application window, there is a PDF icon with the text "A Look at How We Go...". A red arrow points from this icon to the PDF icon in the Mendeley list. A large red diagonal watermark "DRAG AND DROP" is overlaid on the bottom right of the application window.

Per l'importazione automatica di riferimenti bibliografici dalle pagine web si utilizza il plug-in **web importer**. Si scarica dalla pagina per il download del programma e si installa sul browser.

Se si visita una pagina web con un articolo o libro ed i metadati sono compilati, allora basta cliccare sul bottone , si apre la finestra di dialogo - chiede di scaricare il pdf se disponibile - e quindi con il comenzo **Save** si salvano pdf e metadati del documento nel proprio account Mendeley

Direct Aminophosphonylation of aldehydes catalyzed by cyclopentadienyl ruthenium(II) complexes

Cabrita I, Sousa S, Florindo P, Fernandes A

Tetrahedron
2018 vol: 74 (15) pp: 1817-1825

This work reports a novel method for the direct aminophosphonylation of aldehydes catalyzed by cyclopentadienyl ruthenium(II) complexes. The system $\text{HP(O)(OEt)}_2/[\text{CpRu}(\text{PPh}_3)_2\text{Cl}]$ was very efficient for the aminophosphonylation of aldehydes with primary and secondary amines.

organizzare riferimenti e file, leggere ed annotare, compilare bibliografie

Alcune funzioni:

- creare cartelle e sottocartelle per **archiviare** i propri riferimenti, ma anche i testi completi in pdf così da recuperarli più agevolmente
- **ricercare** all'interno dei testi completi in pdf archiviati
- **ordinare** le cartelle, per es. per autore, per avere poi una bibliografia già ordinata.
- aggiungere **tag** e note (per singolo riferimento, dal pannello a destra)
- **leggere ed annotare, evidenziare** i file in pdf, aggiungere note al testo, con il **lettore integrato** per pdf.
